

ISPAIA is located at **Zoopôle** - Ploufragan (France)

**ZOOPOLE** : A Science Park dedicated to **Animal Health** and **Food Safety**  
 - over 800 persons : scientists, vets, technicians ...

**Continous training  
Consultancy  
Scientific communication**

**Who is concerned :**

professionals, researchers in animal production, food safety, laboratory diagnostics...

**How:** high specialisation, high applications of training with videos, slaughter observations, necropsies, work in laboratory..

Trainig certification :

## Main Areas

Animal health, reproduction, herd management, welfare and swine handling  
Necropsies and pathology

Hygiene, HACCP, quality control systems and accompaniment for involvement of ISO standards in agri-business industry and in collective catering

Quality control systems for laboratories

## Keys factors

- Scientific and technical know-how of ISPAIA
- Strong relationship with partners of the ZOOPOLE (ANSES, LDA22, CTPA...)
- Strong relationship with our customers (co-operatives, laboratories, feed industry...) for development of common reflections, projects, actions in training or technical communication

## Example of actions

- Catalogue of training: presentation of ISPAIA own programs
- Realisation of other training courses with sponsorship
- Realisation of studies:
  - survey on lung lesion with slaughter control on 110.000 lungs
  - study on regional feasibility of sanitary network: Livestock producers organisation
  - ...
- Consultancy for co-operatives
- Organisation of technical seminars or videoconferences
- Edition of a newsletter on technical swine actualities "Porcinews"

Moreover, ISPAIA has a good experience with the organisation of **international congress for scientific associations**.

Some examples:

- June 2010 «4th Annual Meeting EPIZONE», organised by the Central Veterinary Institute (NL), in Saint-Malo, 200 attendees
- May 2010 and May 2006 « Salmonella and Salmonellosis », co-organisation with ANSES / AFSSA, INRA, Institut Pasteur, InVS in Saint-Malo, 400 attendees
- Oct. 2005 « New Diagnostic Technology: Applications in Animal Health & Biologics Controls », for the IABs (International Association for Biologicals) in Saint-Malo
- Oct. 2004 « Animal production in Europe: The way forward in a changing world », for the ISAH (International Society for Animal Hygiene) in Saint-Malo, 250 attendees
- Sept. 2003 « XVIth European Symposium of the Quality of Poultry Meat, Eggs and Egg Products » for the WPSA (World 's Poultry Science Association) in Saint-Brieuc, 400 attendees
